

## 33<sup>rd</sup> FISITA WORLD AUTOMOTIVE CONGRESS 2010

### Students and Young Engineers Programme

#### TRAVELLING FELLOWSHIP

One week before (25/05/2010 – 29/05/2010) the Main Congress starts young automotive engineers, under the age of 35, have the great opportunity to take part in many interesting and beneficial programs each day with other similarly interested engineer-mates from all over the world in Hungary.

The programme will include visits to e. g. Audi Hungary Motor Ltd, Knorr-Bremse, Hungarian Suzuki Corporation, NABI Ltd. A number of cultural and recreational tours around Hungary will also be included. This is a wonderful opportunity for young engineers to make connections with their peers from around the world.

Students and young engineers will have the chance to present their ongoing researches, or even results in the field of automotive engineering as they are also invited for the Student Congress (30/05/2010 – 04/06/2010) to present a paper (see below), which will be published on the Congress Proceedings CD ROM. Travelling fellows will join the Student Congress participants at the FISITA 2010 Welcome Reception taking place on Sunday, 30 May.

One applicant from each FISITA member society with a maximum of 20 participants can apply for participation. The application will be accepted on the basis of first-come, first-served so that the first applicant from each country will be preferred. The Travelling Fellowship registration fee is 600 EUR (OECD), 480 EUR (non-OECD) including Student Congress participation. Travel (to Budapest and back) and accommodation costs are sponsored by the national FISITA member society. All costs relating to the technical programs are covered by GTE.

Application details are on the website: <http://www.fisita2010.com/students/travellingfellowship>. The application form should be scanned and sent either by the fellow applicant or the national FISITA member society to [fisita2010student@diamond-congress.hu](mailto:fisita2010student@diamond-congress.hu) after the selection for the youth programmes. Abstract requirements can be found also on the Student Congress page. Abstracts should be uploaded through <http://www.fisita2010.com/students/travellingfellowship>.

Please make sure before uploading that your application form has been sent to [fisita2010student@diamond-congress.hu](mailto:fisita2010student@diamond-congress.hu)!

National application deadline is defined by the national FISITA member society!

P.O. Box 48,  
H-1255 Budapest, Hungary  
E-mail: [fisita2010@diamond-congress.hu](mailto:fisita2010@diamond-congress.hu)

Phone: +36-1-214-7701  
Fax: +36-1-201-2680

### **IMPORTANT DATES**

- Application for Travelling Fellowship and Student Congress: 15 January 2010
- Notification of acceptance: 31 January 2010
- Final paper submission and presenting author registration: 15 March 2010

The conditions of participation are the submission of paper and presenting author registration on time. Registration fee for travelling fellows include:

- Whole week programme (25-29/05/2010)
- Attend the Student Congress as written below

### **Student Congress**

The Student Congress runs parallel to the Main Congress (30/05/2010 – 04/06/2010) in the same topics as for the Main Congress:

- |   |   |
|---|---|
| A Environmentally friendly vehicles                                   | E Intelligent systems in road traffic                           |
| B Vehicle design and Development                                      | F Buses, trucks and heavy vehicles                              |
| C Test, simulation and calculation methods of vehicles and components | G Vehicle standards, regulations, legislation                   |
| D Safety on roads   | H Efficient production and operation of vehicles and components |

### **Abstracts should contain the following:**

- Title of the paper
- Contact information for author and co-authors (name and title, institution, position, country, email, fax, phone, mailing address)
- 3-5 keywords
- Subject group(s) the paper belongs to, first and second option (e.g. F4 and/or D4, may be G2)
- Abstract (clear description of the subject, main results and conclusions reached. The description shall be in the range of 2000–2500 characters. In the case of any matrix, diagram or picture their content must be described and the text shall be shortened.
- The statement of the author that the paper is original and has not been published or presented elsewhere.
- The whole, complete abstract listed above shall be presented not more than one page.
- Please note that the Book of Abstracts will be printed in black and white.

Papers must be written and presented in English. Oral presentations are allocated 20 minutes each, plus discussion. The Student Activities Committee (SAC) will decide whether to accept a paper on the basis of the abstract. Abstracts should clearly set out the main scientific, technical, economical and / or practical points to be addressed, paying particular attention to those aspects of the work which are new, innovative and unique. SAC will also decide whether to accept the paper for oral or poster presentation, taking into consideration the total number of abstracts received in each subject group, and will inform authors accordingly. Only papers presented by their authors at the congress will be published in the Book of Abstracts and Congress Proceedings.
